Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the application - Selects an academic subject - Enters the learning problem in text	- Waits for the emotion analysis - Views primary and secondary emotion predictions - Compares BERT and BiLSTM results	- Reads the AI-generated study guidance - Downloads the personalized study plan - Reviews the analytics dashboard
Touchpoint <i>What part of the service do they interact with?</i>	- Streamlit user interface - Subject selection dropdown - Learning problem text area	- Emotion confidence bars - Model comparison panel - Mixed emotion cards	- Gemini AI guidance panel - Study plan section - Analytics dashboard
Customer Thought <i>What is the customer thinking?</i>	"Will this actually understand what I'm struggling with?" "I hope this isn't just a generic form."	"Is this reading my frustration correctly?" "Which model is more accurate, BERT or BiLSTM?"	"This explanation actually makes sense!" "I finally know what to do next."
Customer Feeling <i>What is the customer feeling?</i>	Hesitant, Hopeful	Curious, Slightly Anxious	Relieved, Motivated

Process Ownership <i>Who is in the lead on this?</i>	User / Streamlit Frontend	User / Streamlit Frontend	User / Streamlit Frontend
Opportunities <i>How can we improve this stage?</i>	• Add voice input for learning problems • Support regional languages • Auto-detect subject from text	• Improve mixed-emotion accuracy • Add real-time confidence visualization • Reduce prediction latency	• Integrate with LMS platforms • Add a teacher dashboard • Enable adaptive learning paths
