

Demonstration of Proposed Features

Date	2 July 2026
Team ID	xxxxxx
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	BERT Emotion Detection	Detects primary and secondary learning emotions using a fine-tuned BERT model	Implemented	Yes	Working successfully with confidence scores
2	Multi-label BiLSTM Detection	Detects mixed emotions using a Multi-label BiLSTM network	Implemented	Yes	Produces multiple emotion probabilities
3	Model Comparison	Compares BERT and BiLSTM predictions side by side	Implemented	Yes	Displays both models' results clearly
4	AI-Powered Study Guidance	Generates personalized study guidance using Google Gemini AI	Implemented	Yes	Guidance includes explanation, tips, and motivation
5	Personalized Study Plan	Generates a study plan based on the detected emotions	Implemented	Yes	Plan adapts to the student's emotional state
6	Session History & Analytics Dashboard	Stores session history and displays emotion analytics	Implemented	Yes	Dashboard shows trends and summary statistics

Feature Implementation Summary:

Particular	Count
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
