

Project Demo Planning

Date	3 July 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.N o	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the difficulty students face when learning without emotional support, and how traditional platforms fail to detect confusion or frustration	2	Bogadula Durga Gangadhar Rao
2	Project Overview & Architecture	Present the system architecture, technologies used (BERT, BiLSTM, Gemini AI), and overall workflow	2	Manikanta Devadasu
3	Emotion Detection Demo	Demonstrate BERT and BiLSTM detecting primary and mixed emotions from a live learning problem	3	Kusuma Harichandana
4	AI Guidance & Study Plan Demo	Show Google Gemini AI generating personalized study guidance and a study plan based on the detected emotions	2	Renati Naveen Kumar Reddy
5	Technical Implementation	Explain the Streamlit backend, model integration, and Gemini API usage	2	Srilatha Yannam
6	Results, Future Scope & Conclusion	Present outcomes, limitations, future enhancements, and conclude	2	Manikanta Devadasu

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why students need emotion-aware learning support
2	Solution Overview	Describe the Emotion Detection & Learning Support Engine's architecture, workflow, and technology stack
3	Live Feature Demonstration	Detect emotions, compare BERT and BiLSTM models, and generate AI guidance in real time
4	Q&A Session	Answer evaluator questions and discuss future enhancements
